Next followed the bridal couple after whom came a number of young ladies dressed in pink and white after which the bridal party ascended the rostrum and took their seats beneath a huge bell which was appropriately decorated with pink flowers.

The young ladies in the party were Misses E. Garrett, M. Barbour, N. Carr, L. Richards, B. Brooks, E. Von Evra, I. Ives, M. Harrison, L. Spivey Mrs. C. Haley, Mrs. Thiele, Mrs. Stansbury.

Executives Score Proposed Conference as Labor's Plan to Nationalize

DENY FIGHT ON UNION

Oppose Uniform Rules and Wages as Preventing — Scund Operation—Deny Wall Street Charge.

Chicago, Feb. 19.—The Association of Railway Executives at its meeting yesterday unanimously adopted the report of its labor committee and passed resolutions refusing to enter into national conferences suggested by the employes as a means of settling differences over wages of unskilled labor and working conditions.

Concerning future action on the part of the executives, the committee report simply advised them that the decision of the Labor Board in regard to rates of pay for unskilled labor "relegates the initiation of action upon this matter to the individual railways and their own employes."

The executives denounced the employes' proposed conferences as a plan by labor leaders to bring about nationalization of the railroads. Efficiency of labor upon railroads was incompatible with continuance of the strength and growth of the consolidation of labor unions represented by B. M. Jewell and his associates, the labor committee report said.

The committe report pointed out that the opposition made by the roads to the national agreements and the position taken yesterday was not to be construed as an attack on labor organiaztions themselves.

"All that we have been trying to do," the report said, "is to get the opportunity to deal with our own employes so as to restore the efficiency of labor on railroads and if possible avoid non employment and defer serious wage reductions. The leaders of the labor unions, by the position they have taken, have directly raised the issue whether the maintenance and increase of the power of the natioanl labor unions shall be placed above the public interest in the efficiency and economical operation of our transportation system."

B. M. Jewell, chairman of the railway labor department of the American Federation of Labor Thursday asked the Railway Labor Board to refer the national agreements and the question of wages of unskilled labor to a national joint conference of railway heads and representatives of the labor unions.

Replying to statements by labor leaders that the railroads' suggestion to abroagte the national agreements was part of a plot originting in Wall street to break down the labor organizations, the report said:

"The record demonstrates that the railways have acted throughout independently, primarily in their own interest, but also in the interest of the shippers and the farmers."

One resolution adopted said that the fundamental principles which should guide the railroads in the relations with their employes were:

"1. That the conduct of modern transportation is a great co-operative enterprise requiring for its highest success the honest and loyal co-operation of employer and employe.

"2. That section 301 of the Transportation act requiring every reasonable effort to avoid disputes which might result in interruptions to traffic should be complied with in spirit and letter.

"3. That one of the greatest advantages of private over Government ownership and operation of railroad lines lies in the greater adaptability of individual railroads to the geographical, social, economic and operating conditions which vary greatly with different portions of the country.

"4. That the restoration and maintenance of this variation is essential to private ownership.

"5. That it is opposed to sound public policy to require all railroads to operate under rigid and uniform rules and working conditions or wages, because it prevents economical operation and results in injury to other industries and to farmers and stock raisers, who are brought into competition with the railways for labor.

GROSS WASTE LAID AT DOOR OF CONGRESS

Treasury Officials Declare G. O. P., Majority is Squandering Funds

FOUR BILLION IN BILLS

Cites Transportation Act—Decries Farmers' Loan—Almost National Scandal—Points to Evasion

Washington, Feb. 19.—The Administration slammed back hard yesterday at the Republican majority in Congress, which has been accusing the Executive of gross extravagance and bragging of the economies forced upon the departments.

In a statement sanctioned by the Administration, S. P. Gilbert, Jr., Assistant Secretary of the Treasury, in charge of fiscal affairs, asserted that while $50,000,000 to $100,000,000 might be saved in the expense of the Administration without impairing efficiency, Congress has voted more than $1,000,000,000, chiefly in subsidies to private business and agriculture, and has attempted to conceal the fact from the taxpayers. At the rate Congress is squandering money he doubts that $4,000,000,000 of revenue a year will foot the bills for some time to come.

"Under the Transportation act," said Mr. Gilbert, "provision was made for a $300,000,000 revolving fund for loans to railroads at less than the market rate. The same act guaranteed to the railroads a standard return during the period of six months after the end of Federal control. This guaranty may take as much of $650,000,000 out of the Treasury.

Congress has recently revived the War Finance Corporation in order to make available to the export trade the funds of that corporation, which represent either the proceeds of the Treasury's subscription for its $500,000,000 of capital stock or the proceeds of borrowings by the corporation on what would be substantially the Government's credit.

"A provision has been inserted in a pending bill to authorize the purchase of $200,000,000 of Federal Land Bank bonds in order to make what are substantially Government loans to farmers. Notwithstanding the talk about economy, it seems to be expected that the bill will pass. In fact, the only discussion up to date has been directed to the question of whether or not $200,000,000 in the years 1921 and 1922 will be sufficient for the purpose.

"It is of vital importance to avoid further drafts of this character upon the public treasury. The Government cannot continue indefinitely to finance private business at public expense. The demand of the hour is for less Government interference with business.

"In the second place, it is absolutely essential that for the future the Congress should authorize expenditures by direct and specific appropriations, as contemplated by the Constitution. This means that practices which take money from the Treasury by indefinite or revolving fund appropriations must be strictly avoided. However necessary these practices may have been during the war, they are utterly vicious in peace time. Among other things they are almost perfectly calculated to conceal even the fact of an appropriation, no matter how much money is actually spent.

"By means of indirect and indefinite appropriations of this character hundreds of millions are spent which, if a direct appropriation were necessary, could never be authorized.

"The estimates for the current year, for example, show that over $1,000,000,000 of expenditures were authorized by the last session of Congress in addition to the amounts shown in the usual compiled statements of appropriations. In fact, the practice has reached such proportions as to be almost a national scandal, and it was vigorously denounced in the President's last annual message.

"It has become the first principle of strategy on the part of people interested in appropriation for various special purposes to frame the matter so as to authorize the use of the public funds indirectly, or in indefinite terms, or by authorizations for expenditure of unexpended balances, perhaps appropriated originally for other purposes, or by authorizations to divert Government receipts before they ever reach the Treasury.

"Efforts are made to find general words which do not speak in terms of appropriations and cannot be readily calculated. The last session of the present Congress, for example, authorized additional expenditures out of balances of prior appropriations and from receipts to the amount of over $500,000,000, including over $400,000,000 for the Shipping Board.

"The present session of Congress by similar procedure takes credit for refusing appropriations for the Shipping Board, but at the same time proposes to authorize the expenditure of receipts in amounts that may reach as high as $200,000,000. By the indefinite appropriation for the railroad guaranty about $650,000,000 was in effect appropriated without appearing in any of the statements of appropriations."

Given Six Months

Lena Payne, Colored, Sentenced for Firing Pistol—Also Fined for Contempt of Court

The firing of two shots by Lena Payne, colored, living in the west side of Lee between Queen and Princess streets, early this morning attracted Policeman Lunsford and the officer took the woman in custody and also placed under arrest her husband, Frank, alias "Hooks" Payne. In court this morning the woman asserted she fired the shots at her husband because he mistreated her. The husband, however, denied she fired at him, telling the court she was in the street at the time and that he was in the house. The wife refused to tell the court the cause of the trouble. For this she was fined $10 being adjudged by Justice Snow in contempt of court and she was sentenced to six months in jail for firing the pistol.

Chief Goods testified that the husband does not work as far as he knows. Payne, however, declared he worked in a near beer saloon in south west, Washington. Payne was released on $50 bail bond for further investigation. Payne was represented by Attorney F. P. Russell.

The case of the Payne woman was appealed to the corporation court and later she gave a cash bond in the sum of $300 for her appearence and was released from custody.

Mrs. Park Tells Women Voters of Bills Effecting Them in Congress—Reception Follows

Mrs. Maud Wood Park, of Washington, president of the National League of Women Voters, addressed a large audience last night in the Chamber of Commerce auditorium, under the auspices of the Alexandria branch of the league.

Mrs. Park is a woman of striking personality, a forceful speaker and thoroughly familiar with present day legislation, particularly the bills now before congress that affect women and children. She has a pleasant well modulated voice, her talk was greatly enjoyed. The applause was frequent, especially when she brought forth a particularly telling point in favor of legislation for women.

Mrs. Park was met at her hotel in Washington by a committe from the local branch, and brought to this city in a private automobile, and after a public reception held in the club room, was carried back to her home.

Miss Rose M. MacDonald, president of the local league, introduced Mrs. Park, and in the room adjoining the club room, refreshments were served by the executive committee, assisted by Miss Collins Jones, Miss Nina Fulton, Miss Sarah Fox, Miss Katherine Waller and Mrs. George M. Anderton, Mrs. Sherman B. Fowler and Miss Mary E. Carlin poured coffee.

TRINITY CHURCH HOLDS CONFERENCE

Ask Return of Rev. Dr. D. H. Martin to Pastorate

PROGRESS REPORTED

Sunday School Makes Rapid Strides —More Men Than Women Attend Sunday Evening Services.

The fourth quarterly conference of Trinity M. E. Church, was held at the parsonage Friday night, February 4, with the district superintendent, Dr. John R. Edwards presiding, the attendance being the largest for years. The reports from every organization showed magnificent progress along all lines. When Dr. Martin came here in October there were only six members in the adult Bible class. Last Sunday a membership of fifty-five was the record. For the first time in many years the Sunday evening services are being attended by a crowded house. Dr. Martin is a man of splendid vision, and is admirably leading the work of the whole church. A new window has been placed in the church at a cost of $1,500, and has been paid for. The salary has been raised from $1,200 to $1,800, and we are practically out of debt. The attendance in the Sunday school has increased wonderfully, and the young people are now taking a greater interest in the work of the church. The quarterly conference, by a unanimous vote, requested the return of the pastor. Dr. Edwards was very much surprised and pleased at the splendid showing made by the church. New members are being received in the church, and the Sunday evening services are always evangelistic, and strange to say, are being attended by more men than women. A new society known as the Helping Hand, under the leadership of Mrs. James Fitzgerald, has a large membership, and is quite a help to the charge.

TO-DAY'S THOUGHT.

What is the first business of one who studies philosophy? To part with self-conceit. For it is impossible for any one to begin to learn what he thinks he already knows.
Epictetus.

Western Maryland Extension

If the rumor appearing in our news columns of yesterday is based on fact, as to the connection of the Western Maryland R. R., with the Washington and Old Dominion R. R., in Loudoun County, it means more to Alexandria than any happening of recent years. It means the wedding of the coal fields to deep water. This means a prolific union that will beget factory after factory along the tidal shores of the sea-feeding Potomac. That will wrest the raw material where it lies dormant in its native matrix and feed it to the rapacious fires that await it greedily by day and night. That will cause docks and wharves to spring up along our river front as by magic. That will bring once again world-wandering fleets to sail the seven seas and carry the wealth created in Alexandria to foreign marts.

That this is a pleasing dream at present, may not be disputed. But that it may be brought into realization and actuality is just as true. Neither is the bringing of coal to Alexandria the baseless fabric of a vision. Let once the rails be laid from this city to the inexhaustible coal fields that neighbor us to the north, and the picture just portrayed will follow with inevitable sequence.

Now, the question is, can Alexandria in any wise accelerate the wheels of fate in their slow-moving revolutions? Can we, all of us, individual and institution, public, quasi-public, and private, by putting our shoulders to the work with united endeavor, so disburden the gravid Future that we now living may anticipate the better fortune of our children?

We believe it can be done. We believe the signs are already visible. The news of yesterday in our columns is of that nature that if not true it ought to be true. And what ought to be can be made to be.

We shall trace these reports further and lay the information before our readers as we develope it.

League of Women Voters.

The address of Mrs. Maud Wood Park at the auditorium of the Chamber of Commerce was a gem of reasoning and eloquent presentation. Her enunciation was clear and distinct, her words well-chosen, and her arguments incisive and following in due sequence.

She indicated the essential differences that exist in the view-points of the two sexes, explained why such differences are fundamental, and demonstrated the need of a rounded government of the whole people to be represented by both men and woman.

It was a rare treat to listen to this famous woman-orator and we congratulate Miss MacDonald, chairman of the local league, and the ladies who composed the executive committee, on the success of their efforts.

MAN WHO ABUSED FORD MYSTERIOUSLY MISSING

Detroit Feb. 19.—A "mysterious disappearance" has aroused much excitement in the vicinity of Dearborn and Henry Potter, of Philadelphia, is the missing man. He is editor of Facts, a publication that has devoted itself to attacks on Henry Ford.

Just what happened to Potter is a matter of speculation. The police of Dearborn had their suspicions aroused Thursday by the visit to the Dearborn police station by a man who gave his names as H. A. Hamill and said he was personal chauffeur for Mr. Ford.

"Hamill" told the police that last Saturday night he had thrown Potter of the fence of the Ford estate at Dearborn.

He said that Potter, after declaring he would get into the grounds and see Mr. Ford, despite interference, boarded a trolley car. He added that he believed the missing editor had tried to cross the river Rouge to the Ford estate and suggested they drag the river for his body.

William Ford, brother of the manufacturer, told the police yesterday there was no Hamill in Ford's employ.

Support of the theory of an anti-Ford publicity plot was declared to have been given by Daisy Manning, attendant at the Hotel Kendt, in Dearborn, where Potter registered last Sunday.

She said Potter told her he had come to Dearborn to see Mr. Ford, despite the fact he had been warned if he came to Dearborn harm would befall him. Potter told her, she said, that a woman had telephoned him at the Statler Hotel in Detroit and threatened that if he tried to see Ford or pursue his investigation further he would regret it.

Potter registered at the Kendt Hotel at 10 o'clock last Saturday morning. He went to the entrance of the Ford estate at noon, talked a few minutes with a guard, then returned to the hotel, where he spent most of the afternoon. He disappeared about dusk.

Potter is known to have arrived in Detroit February 9 from Philadelphia. He registered at the Statler. Last Friday he called on County Prosecutor Paul W. Voorhies and asked him why he had barred his publication of Facts from sale on the streets.

Voorhies says he told Potter the magazine would be barred as long as it was scurrilous and abusive, but that if he would criticize Ford in a decent manner he might print what he wished.

TO MARCH 10 FOR REBUTTAL RAIL BOARD GRANTS UNIONS

Chicago, Feb. 19. The Railway Labor Board yesterday postponed until March 1 further hearings over the national agreements and also granted the request of B. M. Jewell, representing the employes, that he be granted until March 10 to prepare rebuttal evidence.

The board announced, however, that in the meantime it reserved the right to issue further orders or directions.

March 1 the board will take up evidence presented by the following organizations in the order named: The Brotherhood of Maintenance of Way Employes, the clerks, firemen and oilers, signalmen.

E. S. Grable, president of the Maintenance of Way Employes' organization, yesterday petitioned the board for a statement explaining to railway workers that pay reductions cannot be forced on them until new rates have been established by law.

CHALONER PLANS MOON AND STAR HOPS ON FARM

Charlottesville, Va., Feb. 19.—John Armstrong Chaloner, of The Merry Mills, this county, announces that his experiment with motion pictures as a farm amusement has succeeded so well that on May Day he will branch out farther in the amusement business and build a dance pavilion for his country neighbors.

Recognizing the usefulness of keeping the young folk on the farm through the winter, only to see them leave for the city when time arrived for planting the crops, Chaloner cast about for a summer attraction and settled on the dance.

A pavilion with a floor 100 feet in diameter will be erected, with provision for a canvas shelter in case of rain, but the object will be moonlight and starlight hops.

WOMAN CONVICTED OF BEING "SCOLD."

Pittsburgh, Feb. 19.—A sentence under the old Revolutionary days act "of being a common scold" was imposed yesterday upon Mrs. Bridget Rupple, after a jury had convicted her of the charge.

Assistant District Attorney J. E. Little, in his address to the jury in Criminal Court 1 declared it would be a good thing if the old fashioned ducking stool was resurrected for the beenfit of Mrs. Rupple and other women like her. Testimony was presented to the effect that she had put curses upon some women she did not like, while to others she had applied such epithets as "dirty longlegs," and "mountains of flesh."

The jury recommended mercy. Judge Kline, in passing sentence, said in this instance he would not make a jail sentence, but ordered Mrs. Rupple to pay the costs, go on parole six months, and move out of the neighborhood.

Senate Seek $200,000 Fund To Aid in Fight Upon Typhus

Washington, Feb 19.—An appropriation of $200,000 requested by the Public Health Service for quarantine work at New York where typhus has been discovered among immigrants, was added to the Deficiency Appropriation bill by the Senate yesterday upon request of Senator Calder, of New York.

The money, according to a letter from Surgeon General Cumming, is needed to make alterations in the quarantine station, soon to be transferred by New York State to the Federal Government. Immigration Coommissioner Wallis, of New York, who conferred yesterday with officials, also was said to have approved the appropriation.

Several more newcomers arriving in New York, after entering the country at Boston, have been detained. In addition, extra precautions were taken along the waterfront and in one instance 1,228 passengers arriving on a vessel passed at quarantine were rounded up after they had started to debark and subjected to searching examination. The ship was from Naples.

CANADIAN LABOR WARNS AGAINST OPEN SHOP MOVE

Ottawa, Feb. 19.—Charges that instigators of the "open shop" movement in the United States are extending their campaign into Canada were made here yesterday by Tom Moore, president of the Canadian Trades and Labor Congress.

Mr. Moore's statement was in reply to an address made last night by N. I. Kennedy, president of the Builders Employers' Association of Detroit, Mich., before the local branch of the Canadian Building Industries Association, in which he said the United States "had been run for the past four and a half years by Samuel Gompers and that the last election was a mandate to the Government that the people were tired of being dominated by the American Federation of Labor."

Labor will not "lightly relinquish what it has gained," warned the labor leader.

Uncle Sam May Pay Whisky Spies to Betray Smugglers.

Attorney General Palmer has ruled in an opinion submitted to Secretary Houston that anyone furnishing information leading to the capture of liquor smugglers may be paid rewards up to $5,000 from the sale of the intoxicants seized.

The rewards under the Attorney General's ruling, however, may only be paid where information is furnished of a "fraud upon the customs service" and are not available to those who carry tales to government agents about bootleggers and other domestic violators.

Fight on to Give Charge of Estate to Castoff Wife

New York, Feb. 19.—Action was begun in Surrogate's Court here yesterday to appoint Mrs. Nannie Morse Ryan, formerly of Washington, D. C., widow of Joseph J. Ryan, as administratrix of the Ryan estate.

Ryan, who died a year ago, and was a son of Thomas Fortune Ryan, willed his wife only $10 out of an estate estimated at nearly $100,000, and gave the rest to Miss Dorothy Lucille Whitehead, whom he termed "a friend." Richard H. Clarke, attorney for Mrs. Ryan, said Mrs. Ryan and her two children were in Rome, Italy, in distress and that he had never been able to collect $540 which she said Ryan agreed to allow her every month in their separation agreement.

CROWDER RETIREMENT BILL TALKED TO DEATH IN HOUSE

Washington, Feb. 19.—Legislation providing for the retirement of Maj. Gen. Enoch H. Crowder, the wartime provost marshal general, with the rank of lieutenant general was literally talked to death yesterday in the House.

At the end of seven hours of hopeless wrangling and in the midst of a parliamentary tangle that seemed to have no head or tail, the House was forced to adjourn, leaving the bill stranded at the top of the private calendar, which cannot possibly be reached again this session.

Opponents of the measure, passed by the Senate, and called up and set aside often in the House of late, formed and held a flying wedge that held back a larger element seeking and fighting for its adoption. Going down with the Crowder proposal were a host of highly important private bills. Some effort may be made to bring the measure up again, but leaders dismissed the suggestion. The bill had its day in court, they said, and had failed to pass.

IN MEMORIAM

In sad but loving remembrance of our dear wife and mother, SARAH JANE LANGLEY, who left us three years ago tomorrow, February 20, 1918.

We weep for her, no tenderer wife,
E'er made man's fireside bright,
No more devoted mother love
E'er kept home altar fires alight.
And she is with the angel host
With sinless heart and stainless hand,
Waiting to meet the friends to come,
To that bright and happy land.
By her husband, John T. Langley.

It is sad that one we cherish
Should be taken from our home,
But the joys that do not perish
Live in memory alone.
All the years we've spent together,
All the happy, golden hours,
Shall be cherished in remembrance,
Fragrant sweets from memory's flowers.
By her daughter, Mrs. J. C. Stokes

ALABAMA FIDDLER PLAYS ANCIENT "BOX"

Anniston, Ala., Feb. 18.—R. E. Simpson of Blue Mountain, one of those taking part in the fiddlers' contest here last night, played a violin made in Italy in 1666, the 255-year old instrument attracting much attention among other contestants and spectators.

EXPRESS COMPANY STOCK

Washington, D. C., Feb. 19.—Fairfax Harrison, president of Southern Railway System, said today:

The book for subscription to the million dollars of capital stock offered to the people of the south by Southeastern Express Company, were opened yesterday morning and were closed at night. The stock was allotted proportionally to all the fourteen states served by the lines of Southern Railway System and Mobile and Ohio Railroad. The reports received this morning show over subscription in every State. The stock list will be made up of the names of at least twenty-five hundred widely distributed Southern business men holding on the average about four shares a piece, no single subscription in excess of one hundred shares received and no officer or employe of the railroad was permitted to participate although many of them especially the employees offered to subscribe. The result of a test of practically business democracy and individualism in the south at a time of business depression is of course gratifying to us, but has perhaps a larger significance. Certainly it fully justifies our confidence that the people of the south desire competition in express service and are willing to back their desire with their money and their support in other respects. The Southeastern Express Co., will now proceed under the able management of its President, John B. Hockaday to purchase its necessary equipment and will begin service at the earliest practicable moment of which announcement will be made.

"MISS HOBBS"— Who is She?

IN MEMORIAM

In sad but loving remembrance of my mother, SARAH JANE LANGLEY, who departed this life three years ago tomorrow, February 20, 1918.

Though suffering, she breathed a murmur,
For the Comforter stood by her side,
And whispered, "Fear not, I am with thee,
With me shalt thou ever abide."
On the river the pale boatman hastened,
She heard the soft dip of his oar,
Then from earth and its sorrow he bore her,
Across to the beautiful shore.
43-1p. By her son, William.

IN MEMORIAM

In sad and loving remembrance of my mother, MRS. LAURA A. MERCHANT, who died two years ago today, February 19, 1919.

You don't know the sorrow to be left alone,
Till God sends a message to your home,
'Tis sad when he calls for one of the other,
But saddest of all is when God calls your mother.
By her daughter,
43-1p. Mrs. Blanche Lyons.

Ford

THE UNIVERSAL CAR

ANNOUNCEMENT!

Mr. Edsel B. Ford, President of the Ford Motor Company, gives out the following statement:

"The price of the FORDSON Tractor has been reduced from $790.00 to $625.00, effective immediately.

"This price change has been made possible through lower costs of materials and the fact that we are now located in our new Tractor Plant with greatly increased economic manufacturing facilities in immediate connection with our foundry and machine shops and large blast furnaces where iron is poured directly from the ore, giving us maximum efficiency with the power to reduce cost of production, and down comes the price in line with our policy to market our products at the lowest possible figure without in any way affecting our high standard of quality.

"We are particularly pleased in being able to bring about this big reduction in price at this time because the farmer needs all the help we can give him and this big cut in price will be the means of placing a valuable power unit within the reach of practically every one of them, not to mention industrial and commercial concerns which likewise have benefitted through its use and are already realizing, to a much greater extent, its value as a power and hauling unit. But particularly has the FORDSON Tractor proved a most valuable factor in the saving of farm labor, at the same time increasing the per acre crop yield as well as making possible a utilization of previously uncultivated land, to say nothing of removing no end of drudgery.

"There is no question that the use of machine power on the farm is the greatest advancement made in the development of agriculture, not only in money saving and money making results, as well as raising the standards of living on the farm to a much higher level, but because of its proved value in making every type of land more productive, and consequently our desire to place the FORDSON within the reach of all.

"THERE IS NO CHANGE IN THE PRESENT FORD CAR AND TRUCK PRICES, which are already at the lowest possible figure and now with rock bottom reached on the tractor prices a further reduction in price of either the car, truck or tractor is out of the question; in fact, the big price cuts have been made in anticipation of continuous maximum production and increases may be necessary before long if a large volume of new business is not obtained. Therefore, present prices of Ford products cannot be guaranteed against possible increases."

Ask for the book "The Fordson at Work," which will be supplied free of cost. Let us demonstrate the value of the Fordson on your farm, in your factory, lumber yard, coal yard, or in any general hauling or power work you have to do and let us have your order for a Fordson.

TANKS INVEST DUBLIN IN HUNT FOR SINN FEINER

Dublin, Feb. 19—Once again the Crown forces in Dublin, by a general round up, have tried to catch the elusive Michael Collins, the most wanted man in Ireland, who, thus far, has escaped every trap set for him.

This time part of the city comprising fully 40,000 persons was isolated, while the forces of the Crown searched for the reputed head of the Sinn Fein army and up to late yesterday evening without success. While the people of this area were asleep yesterday morning, military cordons were drawn around it. The people awoke to find they were virtually prisoners in their houses, where they remained all day, except a few who succeeded in getting permits from the troops. House to house search was made for Collins.

The area comprised the congested district northeast of Sackville street and extending back nearly to Miens street. Tanks and armored cars hold the streets, supporting field equipped troops and barbed wire sandbag defenses. Machine guns are planted liberally, some on roofs of houses and others on street corners along footpaths. Troops also were posted on roofs and upper floors of houses. Hundreds of young men found in the invested area were herded into Mount Joy Square for hours while awaiting proofs of bona fides. Some still are being detained.

It is officially announced that the tracks of a railway line in County Donegal on Wednesday were diverted from the permanent way to run into a lake between Cashelnagor and Gweedore. The deed was discovered however, before a mishap occurred. [illegible]

Yesterday's official review says the report of outrages in the last week affords grounds for satisfaction. The greatly reduced number of casualties to Crown forces, it adds, leads to the opinion that the recent lawless activity has reached the maximum and the arrests and seizures being made daily should result in a sensible improvement in the situation shortly.

A large quantity of arms and munitions was discovered by the military and police last night at the Asylum of St. John of God, near Stillorgan, County Dublin. Two arrests were made.

Cork, Feb. 19—Seven armed men forced an entrance to the hospital attached to the workhouse here last night, and, taking an inmate, Michael Walsh, from his bed to the yard of the building, shot him. His body was found with a card reading: "Caught at last!"

IDLE HOUR

The Indian "Io-Wa-Ka," or Northern Blue Flower, plays an important part in the unfolding of the story of the film drama, "Isobel; or The Tail's End," which is to be shown at the Idle Hour Theatre tonight.

This production, adapted from James Oliver Curwood's famous novel, "Isobel," is one of the most powerful Northland romances ever screened.

The hero, a Northwest mounted policeman, cherishes the blue flower as the symbol of pure and faithful womanhood. The woman he loves, married to the man he has sworn to capture dead or alive, prays that he will find "his blue flower of happiness." She, of course, becomes the living "blue flower," of the man's hopes and ideals.

How he finds his happiness at the end of the trail composes one of the most absorbing romances of the north ever screened. The cast is headed by those sterling players, House Peters and Jane Novak.

BIG WAVE THREATENS WHEAT

Kansas City, Mo., Feb. 19.—Myriads of green bugs of a kind yet identified have appeared in Oklahoma and are advancing toward the Kansas wheat fields, according to information received here yesterday by J. C. Mohler, Secretary of the Kansas State Board of Agriculture. Crops in the infested districts of Oklahoma are seriously threatened, according to a message from Oklahoma City, which quoted Thomas B. Gordon, State entomologist, as saying the bugs had entered Oklahoma from Texas.

HOWAT AND DORCHY ARE ARRESTED IN PITTSBURGH

Pittsburgh, Kan., Feb. 18.—Alexander M. Howat, president and August Dorchy, vice president respectively, of the Kansas District of the United Mine Workers, were arrested late yesterday on warrants charging them with criminally violating the Kansas industrial court law in connection with the calling of the Mackie strike.

THAT KNIFE-LIKE PAIN

Only One of Nature's Warnings of Weak or Disordered Kidneys

Have you a lame back, aching day or night? Do you feel sharp pains after stooping? Are the Kidneys sore? Is their action irregular? Use Doan's Kidney Pills—the medicine recommended by so many Alexandria people. Read this case:

Mrs. A. M. Madison, 323 North Royal street, Alexandria, says: "I was so bad off with kidney complaint had to go to bed. My back hurt me as though I were being pierced with a sharp knife. I couldn't turn from one side to the other, but was just helpless. When I was able to get up around at all I had to have help to do everything. I couldn't even lace my own shoes, and I was so nervous my hands would shake like a leaf when I tried to hold anything. The way my kidneys acted showed they were in bad shape. I got Doan's Kidney Pills at Creighton's Drug Store and I was certainly filled with joy before I had used them very long. The misery left me and I felt like my self again."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Madison had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

In The Hands of the Enemy

Una and the Magician (who was disguised as the Red Cross Knight) had not gone far when they saw some one riding swiftly towards them. The new-comer was on a fleet horse, and was fully armed; his look was stern, cruel, and revengeful. On his shield in bold letters was traced the name "Sans Loy." which mean. Lawless. He was one of the brothers of "Sans Foy," or Faithless, whom the real Red Cross Knight had slain, and he had made up his mind to avenge his brother's death.

When he saw the red cross graven on the shield which Hypocrisy carried, he thought that he had found the foe of whom he was in search and levelling his spear, he prepared for battle. Hypocrisy, who was a mean coward, and had never fought in his life, was nearly fainting with fear; but the Lady Una spoke such cheering words that he began to feel more hopeful. Lawless, however, rushed at him with such fury that he drove his lance right through the other's shield and bore him to the ground. Leaping from his horse, he ran towards him meaning to kill him, and exclaimed "Lo, this is the worthy reward of him that slew Faithless!"

Una begged the cruel knight to have pity on his fallen foe, but he words were of no avail. Tearing of his helmet, Lawless would have slain him at once, but he stopped in astonishment when, instead of the Red Cross Knight, he saw the face of Archimago. He knew well that craft; Hypocrisy was skilled in all forms of deceit, but that he took care to shun fighting and brave deeds. Now, indeed, had Hypocrisy's guile met with a just punishment.

"Why, luckless Archimago, what is this?" cried Lawless. "What evil chance brought you here? Is it your fault, or my mistake, that I have wounded my friend instead of my foe?"

But the old Magician answered nothing; he lay still as if he were dying. So Lawless spent no more time over him, but went over to where Una waited, lost in amazement and sorely perplexed.

Her companion, whom she had imagined was her own true knight turned out to be nothing but an impostor, and she herself had fallen into the hands of a cruel enemy.

When the brave lion saw Lawless go up to Una and try to drag her roughly from her palfrey, full of kingly rage he rushed to protect her He flew at Lawless and almost tore his shield to pieces with his sharp claws. But, alas! he could not overcome the warrior, for Lawless was one of the strongest men that ever wielded spear, and was well skilled in feats of arms. With his sharp sword he struck the lion, and the noble creature fell dead at his feet.

Poor Una, what was to become of her now? Her faithful guard an was gone, and she found herself the captive of a cruel foe. Lawless paid no heed to her tears and entreaties. Placing her on his own horse, he rode off with her; while her snow-white donkey, not willing to forsake her, followed at a distance..

HIGH SCHOOL NOTES.

On Monday night Mr. L. O. Armstrong, under auspices of the Y. M. C. A., gave a very interesting illustrated lecture in the High School auditorium. His subject was "Labrador to Alaska." A good audience of High School students, patrons and friends were present.

Our weekly assembly was held on Tuesday. The program was in charge of the athletic association, Robert Midkiff, president, presided.

Mr. Haydon announced that splendid progress was being made on the new stadium fund. He acknowledged the receipt of $50 from the Women's Club of Voters. He also stated that the senior class had pledged itself for the amount of $200 to this fund. Mr. Knight made a short talk on "The Spirit of Fair-play."

On Tuesday night the High School boys met and completely vanquished the team of Emerson Institute (Washington, D. C.) The visitors played a good game but the system of the A. H. S. boys' team was working fine. Petitt led the shooting for Alexandria. The entire team passed wonderfully. Final score 36 to 12.

Also Tuesday night the girls 'Soph' team defeated the girls of Lee School in a fast game. Score 9 to 7.

Friday afternoon the Midgets of Mansassas came to Alexandria to meet the "Bathing Beauties." They met them and also met defeat. Harberg played a fine game for the "Beauties," while Lynn and Lake upheld their reputation as basketeers for Manassas. Score 13 to 6. Immediately following the game of the "Beauties," Lee School girls met the Manassas Freshmen and defeated them by the score of 34 to 5.

The Alexandria Boys are in Martinsburg (W. Va.) to-day. They played the team of Martinsburg High last night, but on going to press no returns have been had from the game.

The Parent Teachers Association have, for the past week, been selling hot lunches in the High school for the benefit of the field.

The track squad was out last week and shows some promising material.

Mike Houston.

WHISKY TAX HELD LEGAL

Frankfort, Ky., Feb 19.—Kentucky's Whisky Tax law, imposing a tax of 50 cents a gallon on liquor in bonded warehouses in the State, is constitutional, according to a decision of the Court of Appeals yesterday.

State officials estimate if the decision is upheld by higher courts one phase of which now is before the United States Supreme Court, the tax will produce $15,000.000. The Whisky Tax law, passed by the 1920 General Assembly for the benefit of the State road fund, was attacked by a Frankfort distiller on the ground that it was an unlawful exaction of legislative power and confiscated property without due process of law.

LANDIS LENIENT TO MAIL THIEVES

Chicago, Feb. 19.—A negro and a white youth, after pleading guilty to separate charges of stealing from the mails, received clemency yesterday from Federal Judge Landis, who deferred passing sentence. as he did in the case of Robert J. Carey, 19 year old bank teller, of Ottawa, Ill., who was released on his own recognizance after confessing to the attempted theft of $92,000.

Robert J. Green, 19 years old, was released when he promised to return for sentence a month after his wife became a mother.

"I'm afraid that if I sentence you now it would have an effect on your wife and something might happen to her which I cannot be responsible for," Judge Landis said.

John W. Fleming, a negro, presented Judge Landis with a discharge showing military service on the Mexican border and in three battles in France.

"This discharge is no license for stealing," Judge Landis said. "I understand you and your sister are the sole support of your aged mother and an invalid sister. Who is going to take care of them if I send you to jail?

"I am not going to sentence you now. Go back to ajil and in ten or twelve days I will have decided what action I shall take."
